

## **Dr. BALRAM TIMANDE**

### **CO-ORDINATOR INNOVATION AND INCUBATION CELL**

Innovation and Incubation Cell GNIET, Nagpur will prove to be an emerging platform for promoting entrepreneurship and start-ups. The basic objective of IIC is to incubate early stage start-ups that will make proven social and financial impact and inspire new ideas to innovate, implement and create. It will help conceptualize, test, prototype and launch potential ventures. IIC focuses on providing an inspiring co-working environment with the right mix of expert guidance, practical advice and interaction with thought-provoking business pioneers. With the support and collaboration of government institutions, management leaders, GNIET faculty and a continuum of incubation, IIC will open doors for the creative and visionary ideas of budding entrepreneurs to create outstanding impact.
