Visit Report

Guru Nanak Institute of Engineering & Technology, Dahegaon, Kalmeshwar Road, Nagpur, had organized an Environmental Visit to NEERI i.e. National Environmental Engineering Research Institute (NEERI), Wardha road, Nagpur.

As environmental concerns limited to human health with a focus on water supply/sewage disposal/communicable diseases and to some extent on industrial pollution and occupational diseases. To overcome from this limitations, the National Environmental Engineering Research Institute (NEERI), Nagpur was established in 1958 as Central Public Health Engineering Research Institute (CPHERI).

On 9th Feb 2018 at 10:15 a.m., we started from College campus by bus and reached NEERI, at 11:30 a.m. ASH students along with faculty member were welcome by Mr. Prakash Kumbhare. Students have been divided into two groups & same has been escorted by NEERI's Volunteers.

Firstly, students visited to the different **Research Labs**, where research work carried out on several issues of environmental degradation. Secondly, Students visited **NEERI Auditorium**, where students learned about NEERI's foundation, functions, objectives and milestone achieved through Audio-Video.

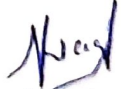

At the end of the visit, Students visited **Model Exhibition Hall**, where models on different environmental issues been placed & presented by students of various schools & convents from Nagpur city.

The students learned various aspects of environment management and the different processes of pollution control. They also learned about the sources, causes of pollution and prevention of air pollution, wastewater, industrial and solid waste in terms of their reduction, reuse, recycle, and finally safe disposal.

The visit added to the knowledge of the students about environment Management and made them realize the importance of protecting Environment for the benefit & well being of the society at large.

Total 71 students of ASH along with three faculties namely Prof. Reahma Choudhary, Prof. Ekta Meshram & Prof. Sanjivani Burde were coordinated. The visit was completed successfully.
